INFORMATION DISCLOSURE STATEMENT

Commissioner for Patents
P.O. Box 1450
Alexandria, VA 22313-1450

Sir:

In accordance with Applicant's duty of candor under 37 CFR §1.56 and in compliance with 37 CFR §1.97 and §1.98, Applicant submits the present Information Disclosure Statement and Form SB08A. Copies of the listed references are included herewith.

These references were either cited in the Background Art section of the patent application or in a Search Report completed on June 27, 2003, a copy of which was forwarded to the United States Patent and Trademark Office concurrently with the filing of the patent application on October 8, 2004.

This Information Disclosure Statement is being filed before the receipt of a first Office Action on the merits and constitutes a bona fide attempt to comply with 37 CFR §1.97 and §1.98.3

German Patent No. 2851541 is not in the English language. DE 2851541 discloses a process for washing dishes in a household dishwashing machine equipped with a rinsing container that is connected to a fresh water supply line and a soft water supply line leading out of an ion exchanger, which can be filled or emptied by means of a programming and fill level control device as well as controllable valves through which flow fresh, soft or mixed water for the subroutines - pre-rinsing, washing, interim rinsing, clear rinsing and drying - which can be selected, characterized in that the rinsing container can be filled with mixed water for cleaning

ALL REFERENCES CONSIDERED EXCEPT WHERE LINED THROUGH. /JH/

BEST AVAILABLE COPY

and interim rinsing, the water hardness of which can be set with a timed controllable fresh water supply and a subsequent soft supply to a programmable fill level.

German Patent No. 2911366 is also not in the English language. Claim 1 is as follows:

Process for monitoring the fill level of the salt stock of a salt container needed to regenerate an ion exchanger in a dishwashing machine or a clothes washing machine, characterized in that the salt container is exposed to, irradiated or subjected to light or sound, and that the light or sound waves are reflected by the contents of the salt container and/or pass through it in a dampened fashion, and that in the event of any deviation of the reflection and/or through value from the set point, a signal is issued for the salt to be refilled.

The are English abstracts attached to the remaining Non-English foreign patents cited in this Information Disclosure Statement.

In accordance with 37 CFR §1.97, the presentation of this information shall not be construed as a representation that a search has been made or that no other material information as defined in 37 CFR §1.56 exists, or as an admission that the information cited in this statement is, or is considered to be, material to patentability as defined in 37 CFR §1.56.

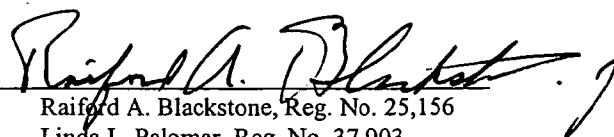

Should the Examiner believe a fee is required, the United States Patent and Trademark Office is hereby authorized and requested to charge the fee to the deposit account of the undersigned firm, Account No. 20-1495.

Respectfully submitted,

Dated:

Jan 11, 2005
